MAP NUMBERS AND RESTRICTIONS

WESTERN HALF OF 14 C

- ① Big Game Hunting by Permit
Small Game Hunting by Access Permit
- ②-⑦ Additional Hunting Restrictions

The circled numbers on this map correspond to state restricted areas described on page 73 and summarized on pages 74.

STATE RESTRICTED AREAS IN UNIT 14C

- (1) **Fort Richardson Management Area** - the Fort Richardson Military Reservation is open to taking big game by permit only and small game with an access permit from the military police. **Hunter Education Certification is required.**
- (2) **Eagle River Management Area** - the Eagle River drainage upstream from the Old Glenn Hwy. is closed to hunting except sheep, goat, black bear, and small game by permit only. Before hunting small game or black bears, hunters must have successfully completed a Hunter Education Certification Course. Small game can be taken by bow and arrow or muzzleloaders only by permit. Black bears may be taken by bow and arrow, muzzleloaders, and firearms by permit only. Archers and muzzleloaders must also have successfully completed a weapons-specific certification course. Deleterious exotic wildlife may be taken by air rifle with rifled barrel, bow and arrow (with blunts or other special small-game points) and falconry.
- (3) **Anchorage Management Area** - all Cook Inlet drainages south of the Elmendorf and Fort Richardson Military Reservations and north of and including Rainbow Creek drainage but excluding the Anchorage Coastal Wildlife Refuge. **Moose hunting is allowed by permit only, small game by falconry only. Deleterious exotic wildlife may be taken by air rifle with rifled barrel, bow and arrow (with blunts or other special small-game points) and falconry.**
- (4) **Eklutna Lake Management Area** - the drainages of Eklutna River and Eklutna Lake upstream from the Old Glenn Highway, excluding those drainages flowing into the East Fork of Eklutna River upstream from the bridge above the lake, and Thunderbird Creek. **Only bow hunting is allowed in this area and only for moose by permit only and the following species from the day after Labor Day: black bear through May 20; sheep by permit only through Oct. 10; and small game through Apr. 30 except grouse and ptarmigan through Mar. 31.**
- (5) **Chugach State Park Management Area** - Chugach State Park outside of the Eagle River, Anchorage, and Eklutna Management Areas. Regulations for Unit 14C generally apply except that **hunting is allowed for black bear from the day after Labor Day through May 31; bull moose with spike-fork antlers or 50-inch antlers or 3 or more brow tines on at least one side from the day after Labor Day through Sept. 30; antlerless moose by permit only; Dall sheep by permit only; and goat by permit only. No hunting is allowed for brown bear, squirrels, wolf, wolverine, coyote, and unclassified game. Hunting is allowed for hare, grouse, and waterfowl. The Arctic Valley Ski Area (Tokle Creek drainage) is closed to all hunting.**
- (6) **Birchwood Management Area** - all lands bounded on the south and west by Eagle River and the Fort Richardson Military Reservation, on the east side by the Old Glenn Highway, and on the north by Peters Creek. **Small game may be taken only by air rifle with rifled barrel, shotgun, or bow and arrow, north and west of the Alaska Railroad. Moose hunting allowed by bow and arrow only by permit only throughout the management area. Deleterious exotic wildlife may be taken by air rifle with a rifled barrel, bow and arrow (with blunts or other special small-game points) and falconry. NOTE: No hunting is allowed in Beach Lake Park.**
- (7) **Anchorage Coastal Wildlife Refuge**. All publicly owned land and water south and west of and adjacent to the toe of the bluff, which extends from Point Woronzof southeasterly to Potter Creek. You cannot intentionally feed waterfowl in the area. Motorized vehicles cannot be used in the area except by permit. **Only small game may be hunted. Shotguns are the only firearms allowed and these may only be used in areas open to hunting Sept. 1-March 31; to use a shotgun, hunters must complete a certified hunter education course, obtain a registration permit from the department, and present certification in the field upon request; small game may also be hunted with bow and arrows and falcons.** No hunting on private land within the refuge. No hunting is allowed between the Alaska Railroad and the Old Seward Highway and that portion landward of the elevated fill covering the municipal sewer line between the Klatt Road peat disposal site and Campbell Creek (AS16.20.031), and no hunting with shotguns between Kincaid Park motocross radio tower and Furrow Creek.

STOMACH CRAMPS + DIARRHEA = GIARDIASIS

Giardiasis is an ailment caused by a protozoan commonly found in water systems inhabited by beaver. The disease is also called "beaver fever." It can be treated by medications prescribed by doctors. Humans can also spread the protozoan. Giardiasis is now present in most (if not all) watersheds in the state. Some people can develop a resistance to the organism. However, most people suffer mild to severe intestinal cramps and/or diarrhea. To prevent giardiasis, either boil drinking water for 1 minute or use a filter with openings less than .9 microns. Suitable filters are sold in most outdoor-oriented stores and catalogs. If symptoms develop, remember to tell your doctor you were drinking untreated water.
